

DW-BS002

Emergency Basket Stretcher
Straight Type.

Meticulously designed for a wide range of critical situations. Crafted with robust and fire-proof materials, this basket stretcher ensures safety and durability.

This Emergency Basket Stretcher is a lightweight Basket Stretcher equipped with reliable fittings; first-aid personnel can swiftly and safely provide assistance. This straight type of basket stretcher specialized sling equipment makes it ideal for helicopter lifting and transportation with adjustable safety belts for added safety in airborne operations. We also have Foldable Basket Stretcher (DW-BS003) which is more convenient to carry and store in confined spaces.
